EXPERIENCE

ML Engineering Advisor

Oct 2025 – Present

HeyMaya (Meshly Technologies)

Remote

- Built conversational AI platform serving 150K+ users on WhatsApp with 200ms response times, automating HR recruitment workflows
- Trained and deployed language model on AWS SageMaker achieving 97% conversation accuracy across 10K+ daily interactions
- Reduced monthly cloud infrastructure costs by 40% through model optimization while maintaining production quality

Software Development Engineer Intern

Jan 2025 – Jun 2025

Hero MotoCorp

Gurugram, India

- Automated invoice reconciliation system processing 500+ monthly invoices, reducing manual review time by 60%
- Built React validation dashboard cutting batch processing time from 45 minutes to 12 minutes
- Optimized SQL queries and database indexing, improving dashboard load times from 8.2s to 1.3s

Data Analyst Intern

May 2024 – Jul 2024

Ennovations Techserve

Noida, India

- Automated ETL workflows for 50K+ records using Zoho Analytics, eliminating 80% of manual data entry

Technical Head

Dec 2023 – Jun 2025

AIEC, IITM

New Delhi, India

- Directed 46-hour hackathon for 1,200+ participants with zero infrastructure downtime
- Conducted 8 ML workshops for 300+ students; mentored 15 teams with 5 reaching production deployment

TECHNICAL SKILLS

Languages: Python

ML/DL Frameworks: PyTorch, TensorFlow, Hugging Face Transformers

LLM & Gen AI: LangChain, LangGraph, LlamaIndex, Pinecone, FAISS

Agent Frameworks: CrewAI, AutoGen, n8n, Ollama

Deep Learning Architectures: Transformers, CNNs, RNNs, LSTMs, GRUs, Attention Mechanisms

Cloud & Deployment: AWS, Docker, FastAPI

PROJECTS

Ava | *Real-time conversational voice assistant*

- Developed conversational voice AI achieving 1.35s end-to-end response time, 2.5x faster than industry baseline
- Implemented GPU optimizations reducing audio generation time by 85%, enabling natural real-time conversations
- Integrated speech recognition, language model, and neural voice synthesis into unified streaming pipeline

HeyMaya | *Production LLM platform for HR automation*

- Trained conversational AI on 50K+ HR dialogues; deployed to production serving 150K+ active users
- Optimized inference pipeline achieving 200ms p95 latency for real-time conversations on mobile networks

Indian Classical Music Separation | *Deep learning for audio source separation*

- Trained audio source separation model achieving 12.45 dB SDR, outperforming Meta's Demucs by 53%
- Designed custom loss function for harmonically complex Indian instruments, trained on consumer-grade GPU

Research RAG | *Retrieval-augmented generation for academic papers*

- Built RAG backend grounding LLM responses in arXiv papers, eliminating hallucinations through source citations
- Implemented semantic search with FAISS and sentence-transformers for embedding-based paper retrieval

ACHIEVEMENTS & LEADERSHIP

1st Place AI/ML Hackathon (200+ participants, 2024) — **Speaker** ED Talk World Conference 2024 — **Technical Head** AIEC organizing 8 ML workshops for 300+ students

EDUCATION

Maharshi Dayanand University

New Delhi, India

Bachelor of Computer Applications

2025

Central Board of Secondary Education (CBSE)

New Delhi, India

Senior Secondary - 84%

2021

Central Board of Secondary Education (CBSE)

New Delhi, India

Secondary - 92%

2019
